

TUBE WITH CROWN CAP

DESCRIPTION

Our tube with crown cap offers several advantages: Safety is guaranteed by the child-resistant closure and the unbreakability.

Protection is offered due to excellent barrier properties. Moisture and light are thus perfectly excluded, while the aroma of your product is optimally preserved.

Because our aluminium tube with crown cap is also completely recyclable and lightweight, you can even protect the environment with this packaging!

In a production campaign, your tube with crown cap can be printed inline according to your wishes starting at a lot size of 10,000 pieces.

TECHNICAL FEATURES

- Tube: Ø 22 mm x 56 mm (min. length) - 170 mm (max. length)
- Crown cap: Ø 20 mm x 4.25 mm
