CORK BOTTLE

INNOVATION PROJECT

DESCRIPTION

The cork bottle appears in the classic yet modern retro style of a pharmacy bottle. Thanks to the sophisticated look of the aluminium, the bottle is a real eye-catcher on the shelf.

Unlike glass bottles, our aluminium bottle is shatterproof, opaque and much lighter.

By using PCR aluminium, the carbon footprint of the bottle can be significantly improved.

The large opening of the bottle, which is closed with a cork stopper, is particularly suitable for dry products.

TECHNICAL DATA

- Diameter: 53 mm
- Height: 95 mm - 220 mm
- Fill volume: 150 ml - 410 ml

YOUR BENEFITS

- **Significantly reduced carbon footprint** of PCR aluminium bottles compared to glass
→ Cork bottle: **83% lower carbon footprint** than a comparable glass bottle*,
204.8 g CO_{2e} per can (glass) vs. 33.9 g CO_{2e} per bottle (PCR aluminium)
- **Lightweight → Reduced transport emissions**
→ **85% lower CO₂ emissions** for the transport of the cork bottle*
- Opaque
- Shatterproof
- Ideal for dry products
- BPA-NI lacquers available
- 360° inline direct print: Offset print with up to 8 colours, no label required

*Comparison between cork bottle (PCR aluminium, 170 mL) and comparable 170 mL glass bottle
