

READY TO DISPENSE?

The LINHARDT Dispenser Tube combines high-quality plastic tubes with **modern pump and dispensing solutions** for **premium applications in cosmetics, skin care, sun care, OTC, and personal care.**

Designed for modern consumer expectations, the system combines the **flexibility and convenience of a tube with the precise and hygienic dispensing performance** of a pump solution.

The result is a premium packaging format that enhances both product protection and user experience while supporting strong shelf differentiation and brand positioning.

PACKAGING WITH PRECISION
