

Packaging for your life.

BOSTON ROUND BOTTLE
THE PREMIUM ALTERNATIVE
TO THE CLASSIC BOSTON BOTTLE

DESCRIPTION

Our aluminium Boston Round Bottle offers a sustainable premium alternative to the classic Boston bottle made of glass or PET. Existing closure systems can be used with this aluminium bottle without any modifications.

For an even lower carbon footprint, the bottles can be manufactured from **100% post-consumer recycled (PCR) aluminium**.

The benefits of our LINHARDT bottle range are clear: Our aluminium bottles are lightweight, shatterproof, lightproof, aroma-tight and recyclable – while offering a premium and distinctive appearance.

TECHNICAL DATA

- **Diameter:** 53 mm
- **Length:** minimum length of 100 mm and maximum length of 205 mm
- **Filling volume:** 150 – 355 ml
- **Thread:** GCM1 38/400
- **MOQ:** 100,000 pieces

YOUR BENEFITS

- Significantly reduced carbon footprint of PCR bottles compared to glass
 - Weight: Ø 53 x 100 mm – 24 g
 - Weight tolerance: ±5% → significantly lower absolute weight deviation compared to glass
- Premium appearance combined with low weight
- Easy transition thanks to compatibility with existing closure systems
- Excellent barrier properties: lightproof & aroma-tight
- Shatterproof
- High-quality aluminium look
- 360° inline printing: offset printing with up to 8 colours – no label required
- Highly recyclable
- Quality "Made in Germany"
